**ORIENTATION:** Companionship in the realization of your aspirations and life purpose as you either choose different paths in your life or shifts are demanded because of illness, loss of capacity, deep soul wounds from war trauma, or other confrontations with painful work and life events. Use a positive lens to see into psychological disturbance.

**AREAS OF PRACTICE:** Life transitions; positive and deep soul healing for veterans that permeate deeper realms of spiritual healing; relational healing for veterans and their partners; maturity in personal and career shifts grounded in ancient wisdom and expansion of knowledge; redefining “work”; relationship therapy to deepen trust where betrayal or loss of connection has broken bonds.

**SENIOR KNOWLEDGE AND SKILL:** Deep insight into where you find yourself at this time in your life; compassion and care as you uncover what you may have been holding in fear or shame; depth therapist integrating psychospiritual skills to support and encourage you to process and move through what changes you are facing or choosing. Testimonial: "An iron fist in a velvet glove."

As a registered psychologist with over 40 years of experience, I have carried a variety of psychological roles including drug crisis, early childhood education, post-secondary education, corporate training, community development and private practice.

There are many, new, scientific-based, evolutionary tools available to assist others to evolve in the areas where they are challenged. The wisest and most effective professional helpers say very similar things including: that therapy is focused, accelerated learning; that since thinking determines feelings, talking mostly about feelings can distract from the learning process; that everyone is a survivor of their past, so no longer a victim of it, but rather, a victor over it; and while people do have losses, when they uncover the gains, they become more empowered, present and get on with their life.

I have the privilege of working with clients aged 3 to 83 years. I have assisted individuals and groups to move on from assault, abuse, addictions, ADHD, allergies, auto collisions, autoimmune diseases, bullying, bankruptcy, bipolar disorder, cancer, Crohn’s, depression, divorce, grief, harassment, incest, injuries, job loss, learning disabilities, PTSD, workplace strikes and other traumatic events.

I have a special interest in working with couples and those struggling with bullying, depression and poor self-esteem.
